

HOW TO GET MORE CONTACT LENS EXPERIENCE IN OPTOMETRY SCHOOL

The CooperVision Adopt-a-Patient™ program provides a free year's supply of contact lenses for a patient who otherwise couldn't afford it, while the optometry student gets the experience of fitting and providing care for that patient for a full

One of the hardest things for me in optometry school was getting enough contact lens experience. I could never follow a patient for long enough, from initial fitting to yearly follow up. With that lacking, I missed some really critical learning points. The Adopt-a-Patient™ program will make sure that doesn't happen to future optometry students!

Matthew Geller, O.D.

4 STEPS TO GET MORE CONTACT LENS EXPERIENCE

01 Identify a patient who would benefit from contact lenses

02 Email all necessary patient information to CooperVision
Attention: Robin Leccese
rleccese@coopervision.com

03 CooperVision will mail a year's supply of contact lenses for your patient

04 If the patient is having trouble paying for follow up visits, VSP will provide funding. Contact Dana Beards @ (916) 858-5717
Danabe@vsp.com

HOW TO GET YOUR SCHOOL INVOLVED:

- Show this flyer to your clinical attending supervisor - they will help you to get your first patient started!
- Log on to www.OptometryStudents.com/adopt-a-patient for a full list of materials to get started!
- Tell your department heads, professors, and attending clinicians. They are the individuals who will bring the program to your school!

Win a \$25 VISA Gift Card

Every week for the next year, CooperVision will raffle a \$25 VISA gift card for testimonials and stories related to the Adopt-a-Patient™ program!

For any further information on the Adopt-a-Patient™ program, contact Mark Andre at CooperVision:
